

Personal Online Banking Update Guide

Your Online Banking experience is getting a fresh new look.

The features you already use and appreciate are still here, along with a few helpful additions like Zelle® within online banking, expanded alert options, and the ability to export custom transaction reports.

Transactions

Click on the name of an account to view its transaction history.
Click on the camera image next to the transaction description to view check and deposit slip images.

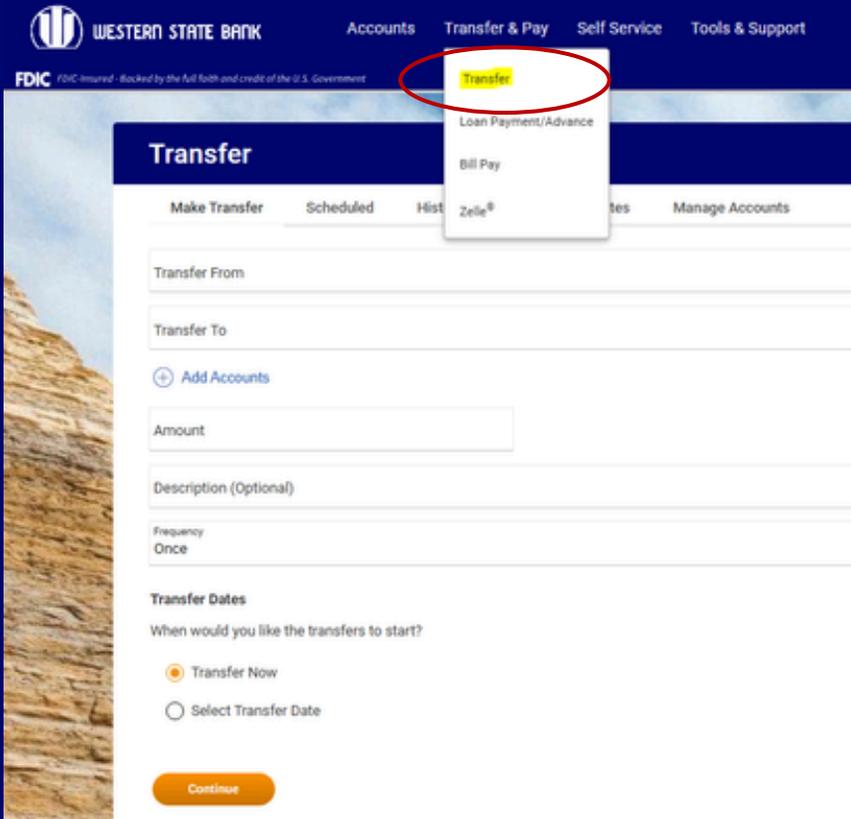

Statements

Your statements can be found in the Documents section within Accounts, or by using the documents link shown beneath each account.

Reports

Locate Reports under the Accounts tab. This feature allows you to filter transactions by type and export your account activity to Quicken™, QuickBooks™, a text file, or an Excel spreadsheet.

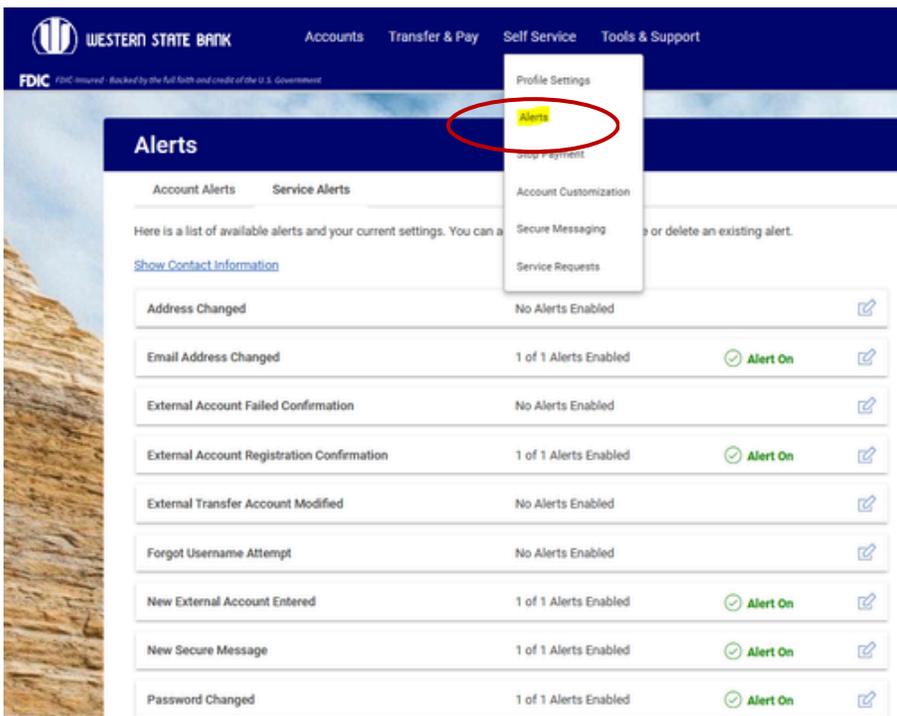

Transfer Funds

Within the Move Money tab, locate Transfers. With this update, you can now create templates to save time when setting up recurring transfers.

Important

Please review any of your previously scheduled external transfers to ensure the information remains correct after the update.

Alerts

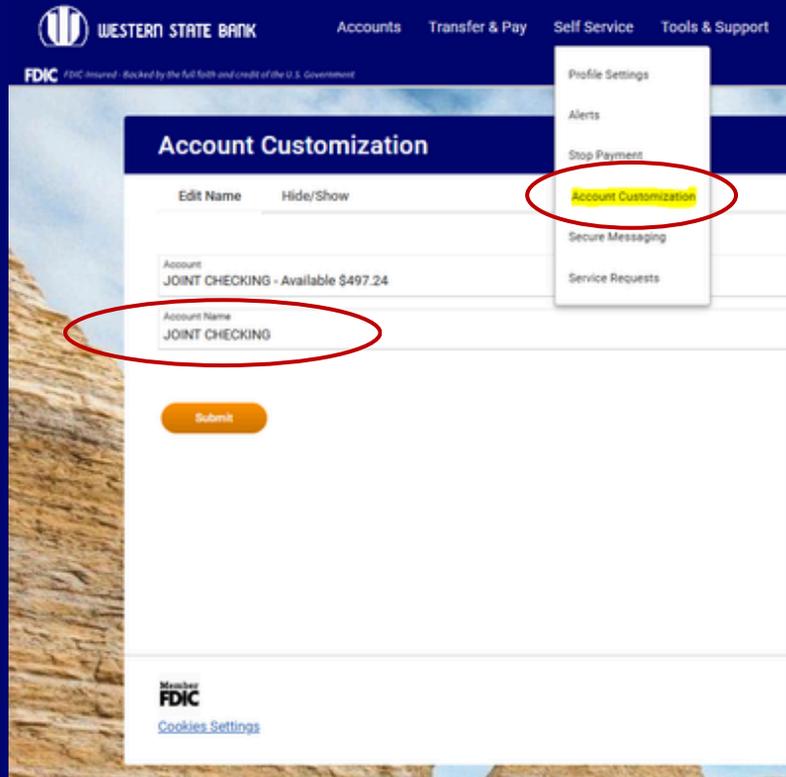

Within Self Service, you can set account alerts for balance thresholds, transfers made from your account, and changes to your email address or password. This update gives you even more alert options, helping you stay informed and keep your accounts secure.

Important

Please review your alert settings after the update to confirm your previously enabled alerts remain unchanged.

Account Customization

Locate Account Customization under the Self Service tab. There, you can create custom names for your accounts and choose whether specific accounts appear on your Accounts home page.
